f social life in San Francisco. He celebrated his birthday by a beautiful ball last week given in the little Palace Hotel, as the structure which is now in use is called. It brought out the fashion, beauty and jewels of the devastated city and exhibited in a marked way the happy frame of mind which seems to go with the California climate. The descriptions of the toilettes show that either trunks were removed to safe places after the earthquake before the fire reached them or else dressmakers and other purveyors of feminine finery have been doing a marvelous business in San Francisco and its suburbs lately. Even the fact that most of the women wore orchids of the most expensive varieties did not pass unnoted in the accounts of this bail, so that in every way it stands as evidence that San Franciscans are lacking neither occasions nor willing-ness to resume their ordinary capacity for enjoying themselves-and in the most up-to-date way.
